Project Description: (please include your detailed proposal along with this application form)

Proposals must include the following information:

1. Description of the organization affiliated with the project (if applicable)
2. Detailed description of the project—Design projects must submit a plan in the appendix that includes:
   a. What problem are you solving?
b. What is your solution?

c. What is out there (i.e., competitive products and/or existing design solutions)?

d. Why do you believe that you are better?

e. How much does it cost?

f. What is the timeline for execution? What are your deliverables?

g. How will the project/activity be promoted/marketed to both the student body and the community?

h. Describe the skills set of your team.

3. Funding details required

   a. Budget – detailed breakdown of how the requested funding will be spent.

   b. Quotations for specific products or services in the breakdown (may be listed in the appendix).

   c. Any other avenues of funding that have been or will be explored.
